Profile

Highly motivated and detail-oriented Computer Science graduate with a **'Very Good'** GPA from the Modern University for Technology and Information. Passionate about AI and machine learning with strong proficiency in developing intelligent systems and algorithms. Seeking to leverage my expertise in creating innovative and efficient solutions for a forward-thinking tech company. Eager to apply my problem-solving skills and continuous learning mindset to drive project success and technological advancement.

Education

Bachelor's Degree in Computer Science

Modern University for Technology and Information (MTI) | October 2020 – July 2024

- **Grade:**Very Good
- **Major:**Computer Science
- **Language of Instruction:**English

High School

Modern School Ahmed Essmat | Graduated 2020

Experience

Software Developer (Remote) | Saudi-based Company (AD FAZ) | September 2025 – Present

- Developing and maintaining software solutions for client projects.
- Collaborating with cross-functional teams to deliver scalable applications.

Machine Learning Developer | Prodigy InfoTech | 2024

- Developed and optimized machine learning models for real-world applications.

Machine Learning Developer | Code Alpha | 2024

- Contributed to AI-driven projects focusing on data analysis and predictive modeling.

Projects

Investigating Practical Models & Techniques for Stock/Share Price Prediction(Graduation Project) | September 2023 – May 2024

- Developed and compared multiple ML models including: Simple Linear Regression, Multilinear Regression, SVR, Random Forest, Decision Tree, KNN, MLP, RNN, CNN, GAN, and LSTM for stock price forecasting.
- Implemented a user-friendly interface using Streamlit to provide investment insights.
- **Tools:**Python, Jupyter Notebook, Anaconda, TensorFlow, PyTorch.

House Price Prediction Using Linear Regression | Machine Learning Project | 2023

- Implemented a linear regression model to predict house prices based on square footage, bedrooms, and bathrooms.
- Achieved high prediction accuracy through feature engineering and data preprocessing.

Customer Segmentation Using K-Means Clustering | Retail Analytics Project | 2023

- Developed a K-means clustering algorithm to segment retail customers based on purchase history.
- Enabled targeted marketing strategies through customer behavior analysis.

Cat vs. Dog Image Classification with SVM | Computer Vision Project | 2023

- Implemented a Support Vector Machine (SVM) classifier for binary image classification using Kaggle dataset.
- Achieved high accuracy through image augmentation and hyperparameter tuning.

Hand Gesture Recognition System | Human-Computer Interaction Project | 2024

- Developed a model to accurately identify and classify hand gestures from image/video data.
- Enabled intuitive gesture-based control systems for interactive applications.

Food Recognition and Calorie Estimation System | Health Tech Project | 2024

- Created a model to recognize food items from images and estimate their calorie content.
- Empowered users to track dietary intake through AI-powered food analysis.

Music Recommendation System | Personalization Project | 2023

- Built a recommendation engine using collaborative filtering and content-based approaches.
- Enhanced user experience through personalized music suggestions.

Skills

Computer & Technical Skills

- **Programming Languages:**Python, C++, C#, JavaScript (TypeScript), MATLAB
- **AI & Machine Learning:**TensorFlow, PyTorch, Scikit-learn, ML Algorithms, Model Training & Evaluation
- **Desktop Applications:**Static language development (C#, C++, Python, MATLAB)
- **Web Development:**Front-end: HTML5, CSS3, JavaScript (TypeScript) | Back-end: PHP, MySQL Database | Full Stack Development
- **Frameworks:**.NET Framework (Windows Forms)
- **Databases:**SQL Server, MySQL, PHP MySQL (DBA)
- **Office Tools:**Excellent knowledge of MS Office (Advanced)
- **Other:**Problem Solving, Git, Streamlit, Jupyter

Languages

- **Arabic:**Mother Tongue
- **English:**Very Good

Personal Skills

- Leadership Skills
- Communication Skills
- Analytical Thinking
- Continuous Learning

Certifications

Artificial Intelligence | Information Technology Institute (ITI) | 2023

Courses

Attended multiple specialized courses in AI, Machine Learning, and Data Science (2023–2024)
